

Peer Observation

Form A - Pre-observation conversation

Peers meet to establish and clarify the following:

- what is being observed and why - contextualise the teaching situation
- when and where the observation will take place
- how the observation will take place

For the Instructor

Choose a class in which the relevant aspects of your teaching will be demonstrated. Indicate if you will be trying a new teaching method, or if this will be reflective of your usual practice.

Instructor	Observer	
Course Code	Topic	Date
Lecture / Tutorial (circle)	Time of class	Number of students

Teaching Context

Course pre-requisites
Student background
Content
Format of class (balance between lecture & activities / student engagement)
Learning outcomes
Perceived strengths and areas for growth
Professional development training in teaching (workshops, consultations)

Specific aims of observation (*Instructor identified*)
