

Your Q&As. Now moderated by your team.

Share the moderation duties with Team moderation.

Host Q&As at your next presentation or lecture without the added stress of live moderation. Within the Teams functionality, you can share a free text activity with presenters within any of your Teams to allow them the ability to moderate your live Q&A activity from their own account.

Team moderation is available for free text activities: Word clouds, Q&As, and Open-ended.

To get started using Team moderation:

1. Create a Team of presenters
in your Poll Everywhere account

2. Create a free text activity, such
as a Q&A or Word cloud

3. Enable Moderation and then
Team moderation

4. Send the unique moderation
link to your team
